SPRING SCAVENGER HUNT

Spring is one of the most magical times on Governors Island, with plants and wildlife waking up after winter regeneration. Journey through these natural areas and see how many you can find:

- Parade Ground & Nolan Park
- Grassy Hill & Outlook Hill
- Liggett Terrace
- Hammock Grove

ALWAYS REMEMBER:

- Do not disturb any wildlife you may encounter, and make sure you maintain a safe distance.
- Keep our plants safe! Please do not enter any fenced-off or planted areas.
- Do not pick any plants or clip any branches.
- You are welcome to collect anything that you find already fallen on the ground.
